DETAILED ACTION

Applicant's arguments filed 05/14/10 have been fully considered but they are not persuasive. The Response submitted by Applicant does not overcome the rejection made by examiner in the last office action.

Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Savinell et al (5,525,436).

The rejection is maintained for the reasons as stated in the last office action and for the following reasons:

Applicant's arguments are based on the use of polyphosphoric acid/sulfonating agent in the claimed step (A) in the claimed proton conducting polymer membrane which is based on sulfonated polymers comprising benzimidazole units.

Note that this is the claimed product by process which is considered the claimed product unless Applicant provides evidence to show the unexpected characteristics by using different steps of the process or different products, or alternatively, the difference between the use of polyphosphoric acid/sulfonating agent compare to phosphoric acid or sulfuric acid.

The reference does disclose the proton conducting membrane which is based on sulfonated polymers comprising benzimidazole units, as required in the claims.

Claims 1-14 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-32, 1-28, 1-74, 1-25 and 1-29, respectively, of U.S. Patent No. 7235320 of record on 1449, or 7332530 or 7384552 or 7540984 or 7582210. Although the conflicting claims are not identical, they are not

patentably distinct from each other because for the reasons as stated above and for the reasons as stated in the last office action .

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
